DETAILED ACTION

Acknowledgment

1. Receipt is acknowledged of the Pre-Amendment filed 13 November 2002.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sano et al. (US 6,097,084).

Sano et al. teach an extended length light emitting diode comprising (Fig.5b):

an extended LED body region (3) substantially integral to and extending and making longer the length of the body of a light emitting diode; the extended length light emitting diode, which conforms to a cylindrically or other geometrically shaped LED body, extends over and about a portion of the LED electrical connection leads (11), thereby insulating and supporting the covered portion of the connection leads; such extension of the light emitting diode body terminates as a base which can align flush to a printed circuit board (4); and the extended length of the light emitting diode allows for insertion into a printed circuit board without an interceding spacer between the printed circuit board and extended length light emitting diode (Col.1, lines 15-25).
